

HSEQ Policy Statement

SEACOR Environmental Services International Ltd (SESI) considers health, safety, quality and protection of the environment to be integral parts of its business management. We will manage our business in compliance with all applicable health, safety and environmental legislation and regulations giving due considerations to industry "best practice", we will ensure that these areas are given parity with all other major elements of our business.

We are wholly committed to providing a safe and healthy environment for all personnel who work within, or may be affected by our operations. To achieve this objective we will conduct our activities in such a way as to as far as reasonably practicable pro-actively protect the health and safety of our employees and other persons and will assess the environmental aspects of our products, services, policies and operations with a view to reducing and controlling environmental impact and preventing pollution. We will constantly monitor our performance and commit to continual improvement in these areas.

We will deliver high quality services, suitable for and compliant with the requirements of our customers. We will pursue opportunities to offer continual improvement by embracing best practice and offering innovative solutions.

Through the Integrated Management System, "IMS", we have established a framework complete with documented auditable process controls to ensure that risks are identified, communicated and controlled in all areas of our operations, with the ultimate objective of achieving zero incident status in personal injuries, asset damage and environmental protection.

Within the scope of "IMS" each SESI business unit will as appropriate align with the requirements of the following Standards:

- ISO 9001- The International Quality Management System
- ISO 14001 - The International Environmental Management System
- OHSAS 18001 - The Occupational Health and Safety Management System

We acknowledge the right of each employee and other personnel operating under SESI management to challenge and STOP an activity or a condition, which they believe may have a negative effect on their welfare or that of others. This includes activities, which may have a detrimental effect on the environment or the integrity of plant, equipment and facilities. We will commend employees who justifiably exercise this right.

We will globally communicate this policy and its associated objectives. We will consult with employees and stakeholders to ensure the provision of such resources, training and support as are deemed necessary to achieve the goals set out in this Policy Statement.

Date: 19th November, 2008

Signed:

Neil Challis
Position: President, SESI
